

Health and Safety Workshop Evaluation

Workshop effectiveness

Was the content of this workshop relevant to your work?

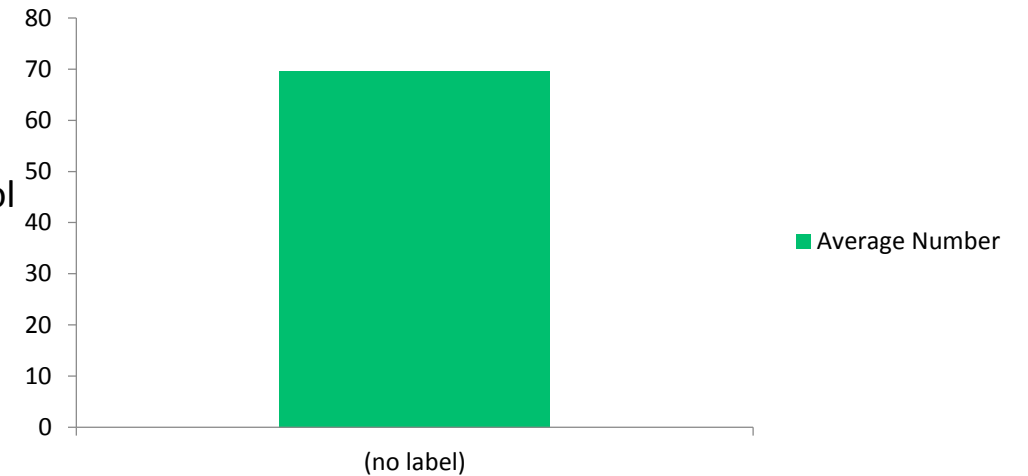

How likely are you to integrate the content of this workshop into your organisation's work?

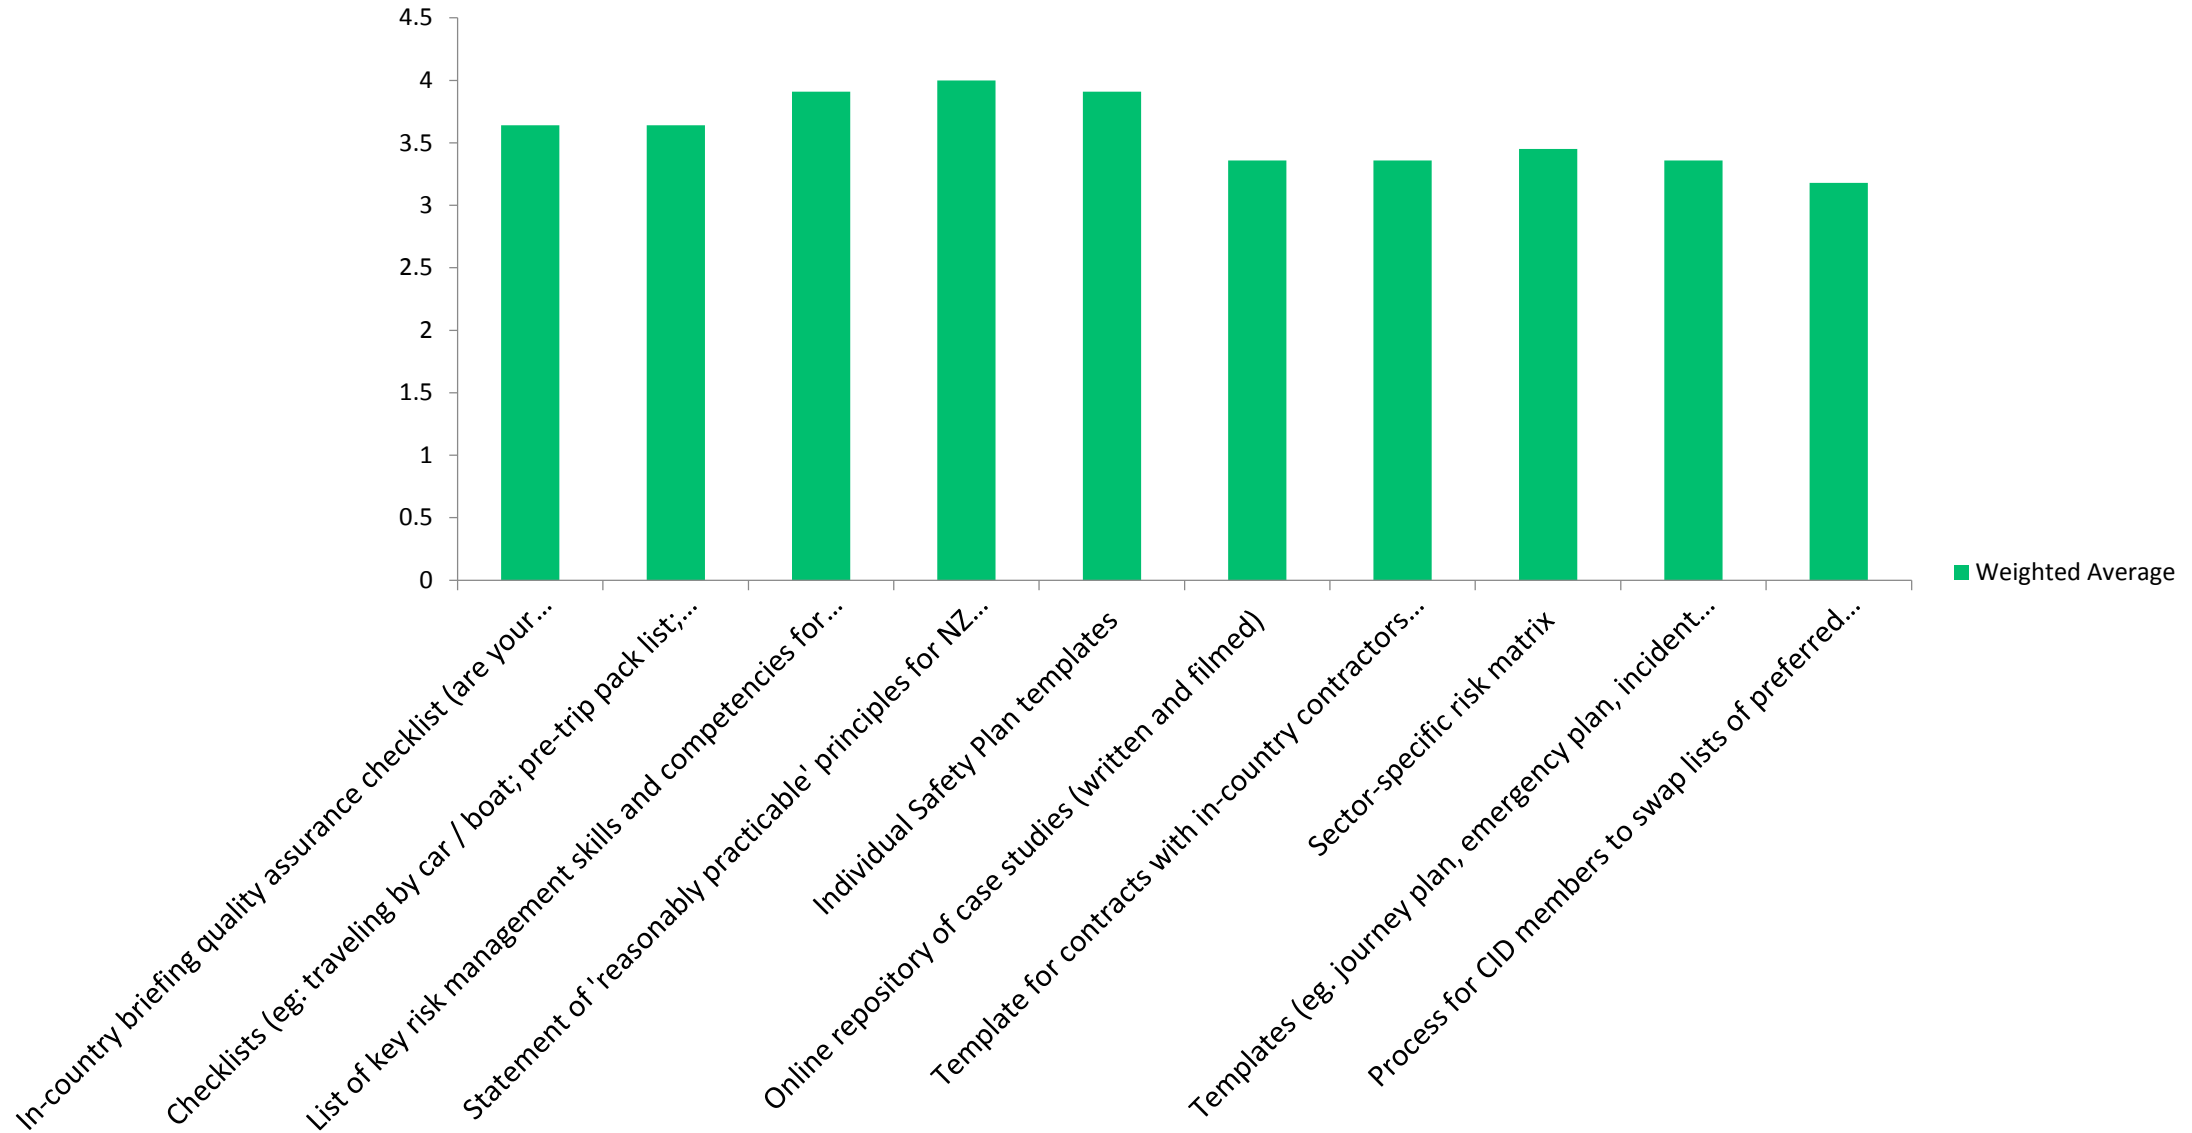

Important outcomes from the workshop:

- Increased understanding of H&E issues and policy
- Clearer understanding of legal expectations of H&S legislation for our sector
- MFATs expectations
- Direct conversations with MFAT on H&S Understanding of our responsibilities
- Collaboration with other NGOs and the sharing of information and practices
- Filling current gaps for staff Health and Safety policy in relation to our sector
- Ability to think pragmatically on the application of the legislation e.g what can control vs what have influence
- Affirmation of our existing tools, and how they can be improved
- Ideas for what needs to be factored into decision making processes
- Importance of providing evidence on all aspects of H&S policy and where it can be possibly mitigated

Indicate the degree to which you agree with the following statement: "Following this workshop, I better understand New Zealand's Health and Safety legislation, and how it applies to the aid and development sector."

The workshop discussions pointed to a number of areas where NGOs might benefit from additional H&S resources. Please rate the relevance of each tool for your organisation's Health and Safety needs:

Improvements and recommendations for the workshop:

- A little less time on the scenarios as that is the easy part. More time on the discussion around shared tools and approaches.
- Only needed 1/2 a day
- More space for MFAT to share their perspective
- Work towards an outcome that collectively developed appropriate tools, templates and approaches
- Speakers Presentations made available online and group work notes captures and distributed to participants
- Issues raised and solutions provided that may be from other workshops but not raised in the workshop you've attended

How helpful did you find the following aspects of the workshop in understanding the health and safety legislation as it applies to the international development and humanitarian assistance sectors?
